

 **MODA**

AI-Powered Catalog Photography: Introduction

MODA AI

MODA AI generates consistent multi-angle product images + video variants from a single input.

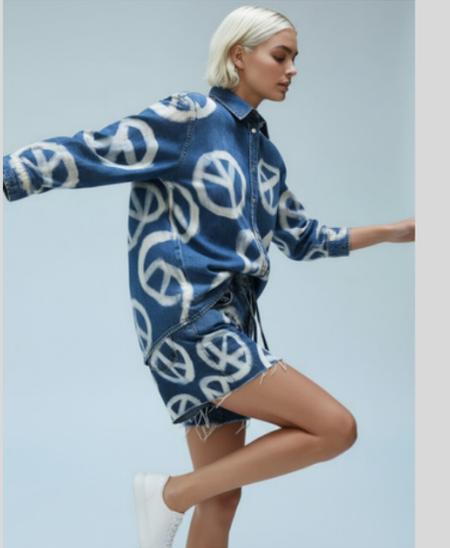

built for marketplace throughput.

API-First Solution: Designed for seamless integration into enterprise cataloging workflows and internal Seller Portals.

- Up to **10 consistent images per SKU** in one batch
- Control model / pose / styling / background with **repeatable templates**
- Designed to **reduce reshoots** + back-view errors + catalog lag
